<b>Total<sup>d</sup></b>	<b>337,519</b>	<b>100.0</b>	<b>400,189</b>	<b>100.0</b>	<b>414,580</b>	<b>100.0</b>

<sup>a</sup> Includes persons reported to CDC from January 1995 through December 2004.

<sup>b</sup> Includes persons reported to CDC from the beginning of the epidemic through December 2004 whose vital status was "alive" as of December 2004. Excludes persons whose vital status was unknown.

<sup>c</sup> These numbers do not represent reported case counts. Rather, these numbers are point estimates of persons living with AIDS, which result from adjustments of reported case counts. The reported case counts are adjusted for reporting delays. Includes cases diagnosed and deaths that occurred from the beginning of the epidemic through December 2004 and that were reported through June 2005.

<sup>d</sup> Because column totals were calculated independently of values for the subpopulations, the values in each column may not sum to the column total.
